Levelling Components

**Martin Levelling Components** si è specializzata nella produzione di componenti di livellamento realizzando una linea prodotto unica nel suo genere per la vastità dei modelli che mirano a soddisfare le richieste di tutti i settori industriali.

L'azienda Martin S.p.A. si sviluppa su una superficie globale di 7.000 mq rispettivamente ripartita in:

- **REPARTO PRODUTTIVO**  
Composto da 60 macchine CNC di ultima generazione, il tutto coadiuvato dalla più recente tecnologia Industria 4.0
- **REPARTO STAMPAGGIO**  
Dispone di numero 2 consociate per stampaggio con presse a iniezione B.M.B, FABES, G.B.F per lo stampaggio di plastica e gomma.
- **MAGAZZINO**  
Logistica e confezionamento.
- **UFFICI**  
Tecnici, Commerciali ed Amministrativi (500 mq).

▶ LOGISTICA  
▶ LOGISTICS

**Martin Levelling Components** has specialized in the production of levelling components.

The range is characterized by a variety of models, which granting maximum flexibility, is focused to fulfill the requirements of the whole industry.

The company Martin S.p.A. spreads over a global area of 7,000 square meters respectively divided into:

- **PRODUCTION DEPARTMENT**

Composed of 60 latest generation CNC machines, all supported by the latest Industry 4.0 technology.

- **MOLDING DEPARTMENT**

It has two subsidiaries with injection molding machines B.M.B, FABES, G.B.F for molding plastic and rubber.

- **WAREHOUSE**

Logistic and assembly.

- **OFFICE**

Technical, Commercial and Administrative (500 sqm).

Martin in addition to covering the national market, exports to more than 80 countries and is able to serve customers worldwide.
